DISCLAIMER In some cases, the purchase price is not listed or may not be current, and unless otherwise indicated, there may be shipping and handling charges involved. Check with the publisher or supplier in each case for these costs. In some cases, all details such as full addresses and Tele/FAX numbers are not available at this time. Your local library can often supply these upon request.

IMPORTANT: Titles, ordering and related costs change frequently. In some cases, prices are not shown. Before ordering a title, it is advisable to contact the publisher for current ordering and costs information at the number and/or website address provided.

All books and materials shown here consist primarily of titles only. Detailed descriptions, contents, etc., are available by going to the publisher's website. All books of interest may not be listed. If you know of titles that you feel should be added, or if you find any discrepancies, please advise to my personal e-mail address and they will be included or changes will be made later in an updated list. The List is updated annually. In keeping with an international theme for this list, please include also those in other than the English language.

NOTE TO INSTRUCTORS, AND AI AND AR ASSOCIATIONS Because of the many requests received, this list may be reproduced (in its entirety, with credits) for the information of students and others having interest in a source for reference materials, and in the making of a library.

JOURNALS, PERIODICALS AND PAPERS

“Accident Reconstruction Journal” and “Accident Investigation Quarterly” Victor Craig, editor.

PO Box 234 Waldorf, MD 2604 Telephone/FAX(301) 843-1371 E-mail: <accidentrj@aol.com>

The Accident Reconstruction Journal is published 6 times per year; the Accident Investigation Quarterly 4 times per year. Now read by over 3600 subscribers in 28 countries. These are excellent sources for keeping up-to-date on AI and AR matters. Periodically, an up-to-date index is published listing articles that have appeared in previous issues of both the Journal and the Quarterly, containing as well references to other published materials.

"*The SOARce*", published for members of the Society of Accident Reconstructionists. The official, "electronic magazine" journal averages 60 to 85 pages, with no paid advertising, and is published 4 times per year. An annual index of previously published articles and papers is also published with Winter issue. The educational journal covers crash test data, test results, current areas of interest, upcoming events, product reviews and peer-reviewed research papers for practitioners of traffic accident investigation and reconstruction. Membership to SOAR is \$50 per year and includes the journal. Contact SOAR at E-Mail: <soar@eschelon.com> or website: <www.accidentreconstruction.com/soar> , which includes a membership application.

“The Cartoon Guide to Physics” by Larry Gonick and Art Huffman, published by HarperPerennial. \$16.99. This manual explains Newton's three laws in concise, clear and elementary language. For further information see:
